

## Additional Services

The Johnson County Environmental Public Health Department serves Johnson County residents and businesses with a multitude of services in addition to food safety training. We support food safety throughout the county through inspection, consultation and training of groceries, convenience stores, temporary food vendors (fairs & festivals), concessions, small manufacturing, bakeries, and restaurants.

Additional services include inspection and consultation of Onsite Wastewater Treatment Systems, lodging establishments, childcare facilities, and private drinking water systems. We will be glad to supply information we have available concerning any environmental public health concern such as air quality, insect/ animal diseases, and bioterrorism/ emergency preparedness.

**Please call or stop by the Johnson Co. EPHS office for more information.**
