Legacy Video Program

Everyone wants to be remembered. Every family has a storyteller. All parents want to teach their family important life lessons, so they can survive and thrive for generations to come. What will your legacy be? Don't let your family stories fade away. Preserve your story or special messages with a personal legacy video.

Key Solutions will create a heartwarming video on DVD or another format of your choosing for your family members. Share a story, give a special message, or family members can also share their memories in this timeless keepsake.

A gift your family will treasure forever.

- Place of birth, favorite childhood memories, education
- Family traditions (holidays, vacations, celebrations)
- Messages to children
- Messages of faith
- Words of wisdom
- Memories and stories of family members
- Stories about beloved pets
- Memories & stories of military service

Once you make the decision to participate in a Legacy Video, a member from Johnson County Hospice will coordinate with Key Solutions who will contact the patient and/or family members to make an appointment and visit with you about your wishes.

Legacy videos are provided to our patients and their families at no additional cost thanks to the generous support from our communities and donors.
